**Ugarit Construction Company**  
Specialized in restoration, construction, and  
finishing

Founded officially in 2018  
Owned and managed by Mr. Ramez Abdulnour Zaza

The company has three branches located in three Syrian  
governorates

Headquarter: Damascus - Bab Sharqi - Al-Zaytoun street

First branch: Latakia - Martakla

Second branch: Aleppo - Al-Aziziah

We are always committed to providing comprehensive  
solutions in the restoration and rehabilitation of homes  
and old sites, as well as in construction, building, equipping  
and finishing works using both traditional and modern  
methods, while maintaining quality and attention to the  
finest details. Our company boasts a rich and diverse  
experience in this field

## Vision

Ugarit Construction Company aims to become the leading engineering company in the region

## Mission

- \* Ugarit Construction Company is committed to providing high-level services according to quality standards
- \* Ugarit Construction Company aims to satisfy our clients
- \* Ugarit Construction Company firmly believes that the company's development is tied to its human resources
- \* We are committed to the highest standards of quality and safety
- \* Ugarit Construction Company encourages its employees to attain top positions and leadership roles based on their qualifications and the wise administrative policy

Ugarit Construction Company undertakes a wide variety of projects with a special nature across all fields of construction, building, and restoration. These projects include (residential complexes, religious buildings, commercial centers, schools, hotels, public squares, outdoor gardens, swimming pools, and sports fields)

As one of the contracting companies, our firm executes required projects by offering the following engineering services

We conduct exterior and interior finishing using both traditional and modern methods, utilizing durable and stable materials that resist natural factors, assist with thermal insulation, enhance aesthetic appeal, and ensure ease of installation and maintenance while considering economic aspects

We ensure that projects are properly equipped with technical and technological installations, including interior decorations, screens, audio systems, as well as electronic and electrical devices

Our company undertakes both exterior and interior restoration work on old buildings in ways that are suitable for the building's identity, as well as partial and complete reinforcement in accordance with general restoration laws

Our company efficiently executes concrete projects, including foundation work, walls, columns, stairs, beams, slabs, and bricks, along with the design of concrete mixtures using various materials

We also strive to enhance and accelerate our projects with the required quality using our diverse machinery and tools

Our company relies on the latest technologies and innovations, contributing to efficiency and delivering innovative projects

The company is committed to continuous growth through the development of its primary workshops

# Company Collaborations

Throughout its professional journey, Ugarit Construction Company has worked with several different entities in the study and execution of projects, including

## International Collaborations

- \* Collaboration with the Hungarian Archaeological Mission in Syria, led by Dr. Balázs, Deputy Dean for Foreign Affairs and Director of the Institute of Archaeology - Faculty of Humanities and Social Sciences - Pázmány Péter Catholic University, and his team (Professor Zsolt, Professor István, Engineer Thomas, Engineer Benny)
- \* Training experience for the staff of Ugarit Construction Company by the Hungarian Archaeological Mission in Syria
- Collaboration with Italian restoration and rehabilitation expert engineer Stefano Matteoni
- \* Training experience for the staff of Ugarit Construction Company with a team of specialized Italian engineers in the restoration and reinforcement of buildings damaged by earthquakes
- \* Study and supervision of projects by the Italian Governmental Organization for Cooperation

## Social Organizations and Institutions

- Latin Center for Relief and Development
- Middle East Council of Churches
- St. Vincent de Paul Society
- Red Crescent
- Al-Mahabba Association
- Mosaic Company
- St. Ephrem Syriac Orthodox Society Charity Service Committee
- Women's Protection Center – Good Shepherd Sisters

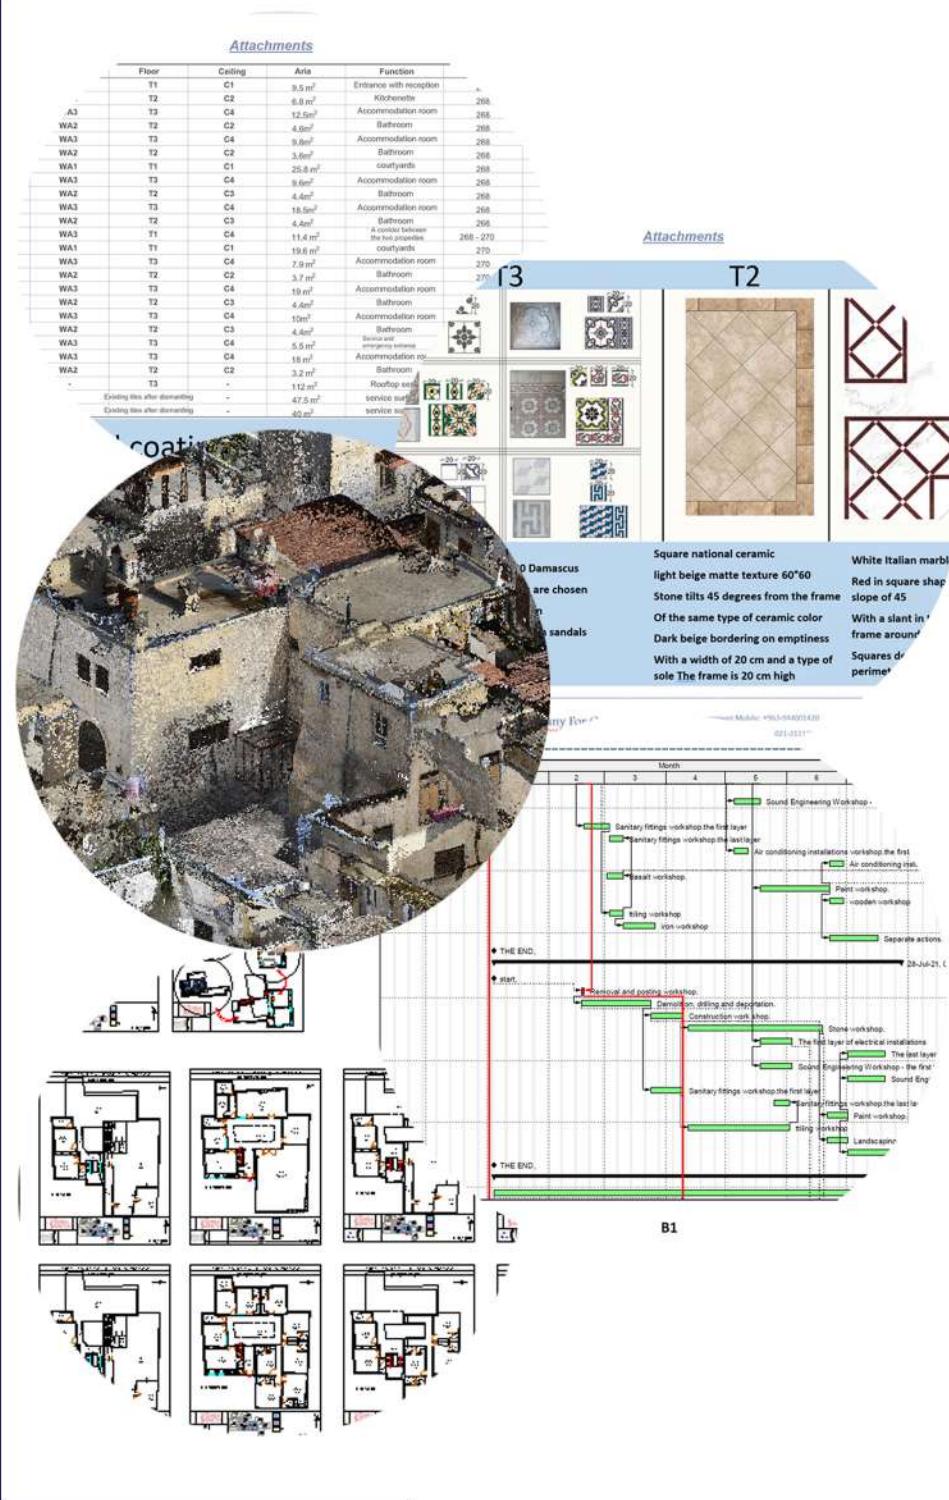

## Religious Institutions

- Franciscan Monastery - Damascus
- Franciscan Monastery - Aleppo
- Franciscan Monastery - Latakia
- Embassy of the Vatican State in Damascus
- Syriac Catholic Archdiocese - Damascus
- Syriac Catholic Archdiocese - Aleppo
- Maronite Archdiocese - Damascus
- Apostolic Vicariate of the Latin Church - Damascus

# Company Features

Our company has a specialized advisory and management team with extensive experience to determine the project's budget and requirements, and to select the appropriate construction and engineering supervision team

Projects are completed and delivered on their specified dates, adhering to quality standards due to our commitment to the pre-established plan by our team

Ugarit Construction Company ensures the accuracy and speed of project execution, paying close attention to details while adhering to quality standards and timelines to achieve the desired optimal execution

Pricing flexibility is based on the economic situation during planning, taking into account the costs of equipment, labor, and building materials, along with availability and competition to offer a desirable competitive price

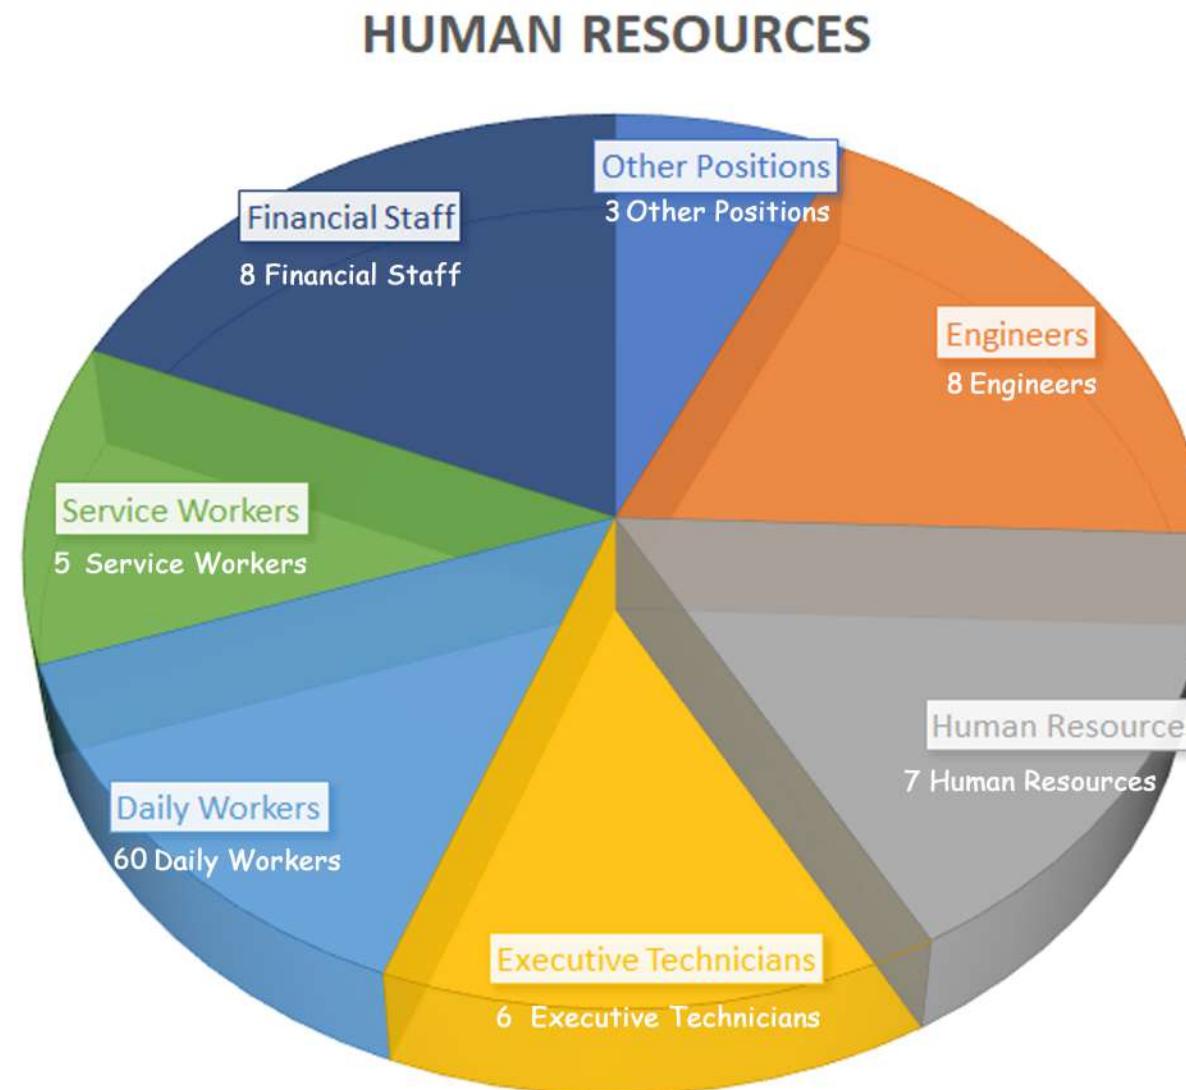

Precise Planning

Adherence to Deadlines

Precision in Execution

Pricing Flexibility

Human resources are the true strength of the company due to their unity and shared vision. This vision prioritizes customer needs and requirements, and honors the dedication of talented individuals who devote their efforts to achieving this vision. Additionally, the team employs a methodology to form workgroups in order to find solutions to any problems that may arise.

Company Employees  
37 employees

Company Workshops  
57 restoration and finishing

# Our Lady of the Assumption Monastery, Latakia - Slunfeh

Studies

Execution

📍 Unnamed Road, ٣ دير اللاتين, CM+HoWR  
Slanfah, Syria

Ugarit Construction Company, through its Latakia branch, studied and executed the architectural and construction works related to the internal restoration of the church, the restoration of the rooms on the monastery's roof, as well as the courtyard and playground of the monastery, and the reorganization and distribution of the back garden, along with some miscellaneous maintenance works

# Our Lady of the Assumption Monastery, Latakia - Slunfeh

Studies

Execution

## Our Lady of the Assumption Monastery Garden Rehabilitation Project

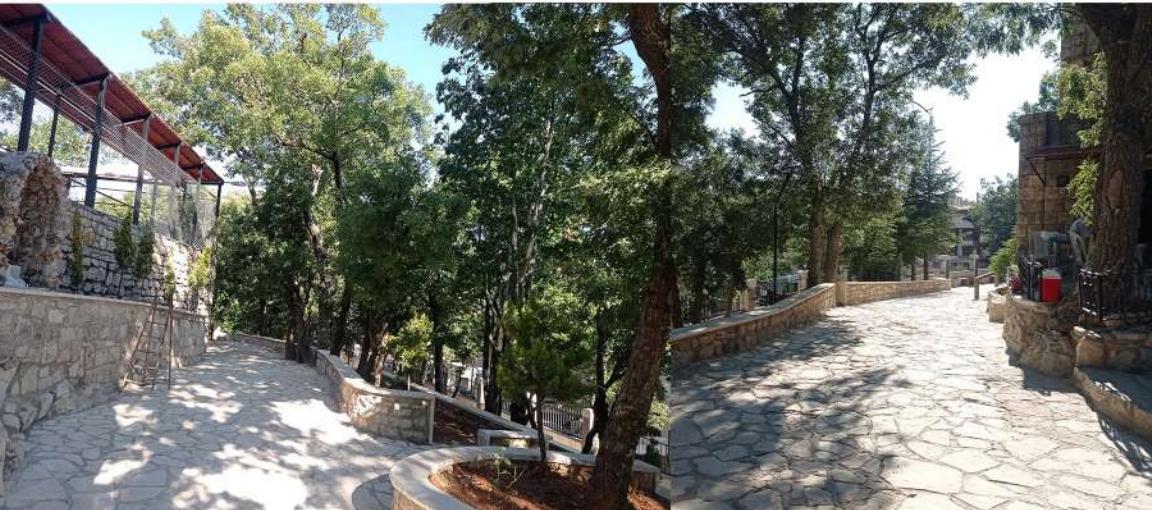

BEFORE

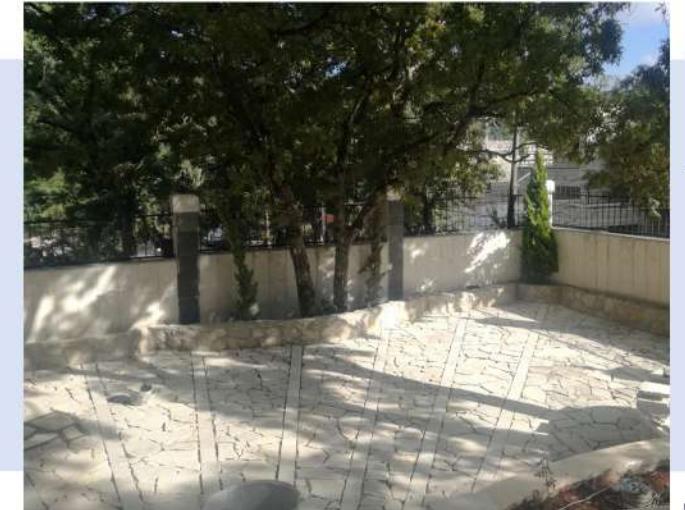

AFTER

AFTER

We also carried out the rehabilitation of the monastery garden, which included creating terraces across the entire garden area, along with a stone courtyard and surrounding stone benches. Additionally, we constructed stone stairs leading to these areas and performed aesthetic works such as gardening, creating a well, and setting up covered shrines in various locations

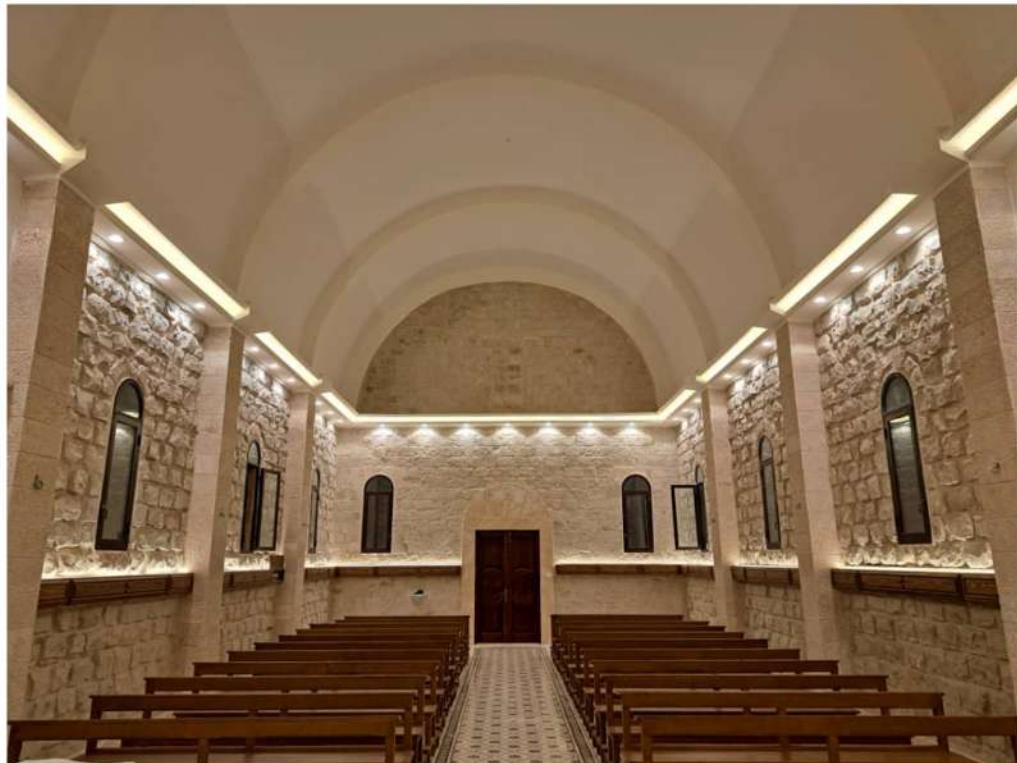

# Our Lady of the Assumption Monastery Church Restoration Project

3D MAX\_V-RAY

The restoration project of Our Lady of the Assumption Monastery Church in Salnafa was carried out through several works, including revealing and treating the original interior stone of the church's structure, highlighting its original beauty along with various woodworking tasks

AFTER

BEFORE

## Monastery Courtyard Development Project

AFTER

3D MAX\_V-RAY

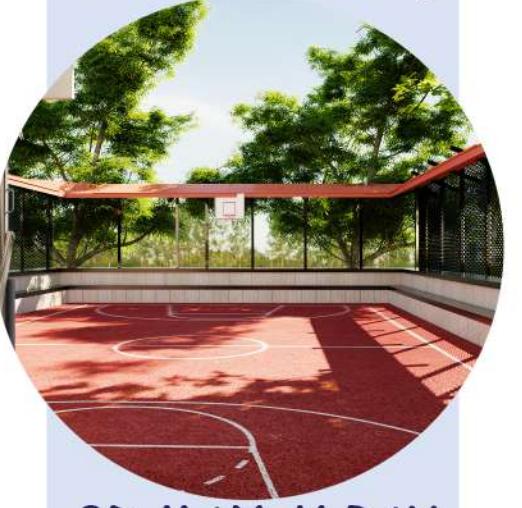

BEFORE

The monastery courtyard development project was executed by tiling the front courtyard with materials suitable for the place and incorporating natural elements to preserve the environment within it

## Monastery Playground Rehabilitation Project

AFTER

3D MAX\_V-RAY

BEFORE

The monastery playground rehabilitation project was carried out by installing new seating terraces, repairing and properly coating the ground, painting it in a manner suitable for the external environment, and adding a tiled roof while considering colors that blend with the surroundings

# Our Lady of the Assumption Monastery, Latakia - Slunfeh

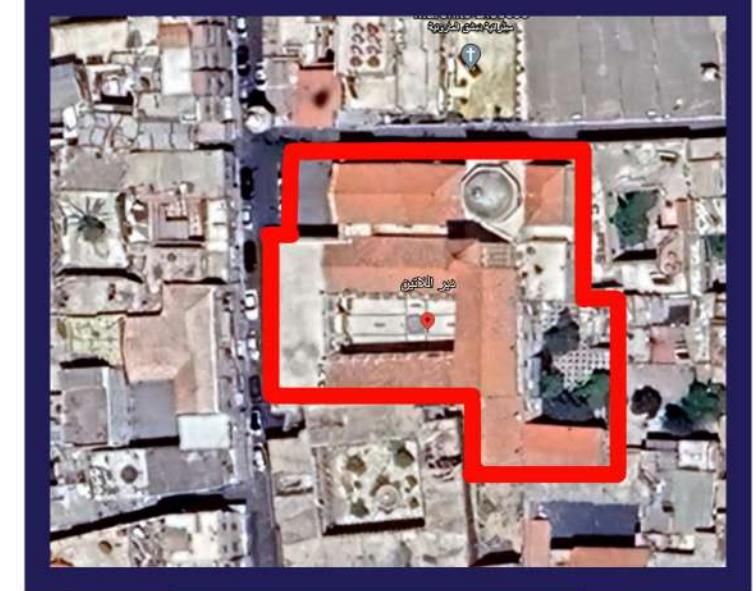

Studies

Execution

# Bab Touma Monastery - Old Damascus

Studies

Execution

 Damascus, Syria Q٤H+G٨٦٨

Ugarit Construction Company, through its Damascus branch, studied and executed the architectural and construction works for the restoration of the monastery. This included the restoration of the monastery's main basement, the creation of a library, the construction of a building in the back garden, the installation of tanks beneath the garden, the rehabilitation of the garden, and the restoration of its external wall.

# Bab Touma Monastery - Old Damascus

## Bab Touma Monastery Basement Restoration Project

BEFORE

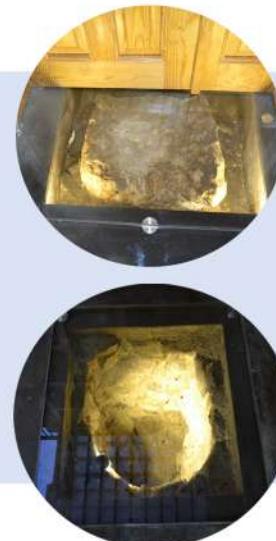

AFTER

We carried out the restoration project for the basement of Bab Touma Monastery, which included expanding the basement by reopening old closed rooms, restoring the stone, and installing nine windows for lighting and ventilation. Additionally, the project focused on highlighting the beauty of the old stone and tiles present in this area while preserving its original location and quality.
